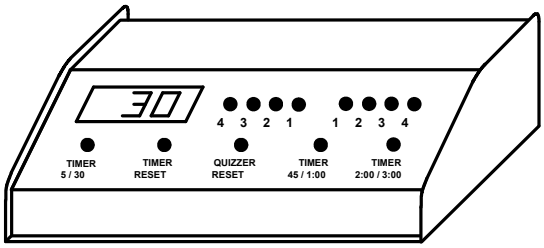
A/G, Open Bible, PH Church Quizboxes

9/2026



Want to know who buzzed in second, and their time compared to first place? The **2nd Place Timer** is now available as an option.

QUIZBOX WITH TIMER 2nd Generation

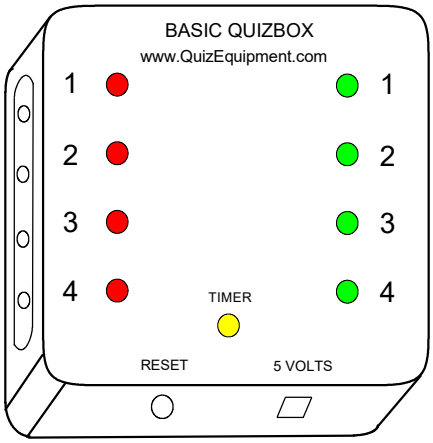
(Comes with 8 paddles, not shown)

- The quizbox will show who responded first out of 8 quizzers. It will turn their light on, sound a tone, and lock everybody else out until reset. There are quizzer lights on the front and back of the box, so everyone can see.

The built-in timer provides the following time intervals:

5 seconds if no one buzzes in.
30 seconds to give an answer.
45 seconds for a time-out.
1, 2 and 3 minutes for conferring and contesting.

- A **2nd Place Timer** is available as an option. When purchased, the box can work normally, or it can show who buzzed in first, 2nd and 3rd, and the time difference between first and second place, from one 10 thousandth of a second (.00010) to .999 seconds.
- A **Reaction Timer** mode is also available as an option. The box shows who responded first to a randomly generated beep, and their response time in milliseconds. Great for speed drills.
- A Scoreboard Connector is available. If your church or district will want a scoreboard sometime, get the connector.
- Handpads plug in individually thru quad extension cables.
- It will connect to other quizboxes for multi-team quizzes.
- An AC Adapter and 8 handpads are included.



- It shows who was first out of 8 quizzers and has a poor-man's timer.
- When someone buzzes in, the timer light will blink 30 seconds, then the box will beep when time expires.
- It can be programmed for a different timer interval for programs where that might be needed.
- In a quiz, it would be positioned near the two teams, with a reset pad located by the quizmaster.
- It is powered by a 5 volt phone charger.
- It comes with the power supply and up to 9 paddles.
- Small size: approximately 3 ¼ x 3 ¼ x 1 ½ inches deep
- It can also show 2nd and 3rd place, if desired.

Basic Quizbox

Also see Basic Quizbox Plus on page 2

Optional timer/reset box plugs in the quizbox reset jack (instead of a reset switch) and gives the timer intervals used in most quizzer programs.

Basic Quizbox Plus

(Black top, light grey bottom)

As a stand-alone quizbox, it works just like the Basic Quizbox, but when plugged into a computer, it can run Buzz Box Games: Simon Says, Reaction timer and Drop-Tac-Toe.

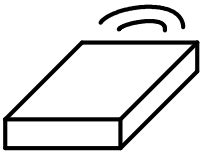
https://pvoelker.github.io/BuzzBoxGames/

The quizbox software has been written by Brian McKevett, and Paul Voelker wrote Buzz Box Games.

3 Person Quizbox

An affordable quizbox for practices at home or in a car.

It can handle up to 3 quizzers, and has a built-in 30 second countdown timer. The power supply is a standard USB charger.

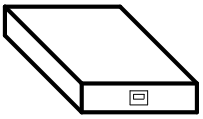


HANDBUZZERS

A standard paddle, but with a battery and beeper inside. Useful for practices at home.

USB HANDPAD

A standard paddle, but with a USB connector. For use with PC programs like Accubuzz and those found at jbqapps.com.



Multi-team quizzing: Quizboxes with Timer (2nd Gen) can interconnect for multi-team quizzing. The first quizzer on any box will lock out all the other boxes. For example, you can connect two Timer boxes together and quiz with 16 kids. Older quizboxes with the Remote Standard connector can also connect in.

Carrying cases: Unless otherwise specified, all quizboxes are shipped in a cardboard box. Each quizbox can also fit in a briefcase, which is better for storage and handling. Briefcases are optional, and are also available from office supply stores such as Office Depot.

Warranty:

- 2 years on most quizboxes and 1 year on the paddles. That does not include cosmetic damage, user modifications or abuse.
- 90 days on the cables, AC adapters and briefcases. (No workmanship is involved on my part, and I can't control how you treat them.)
- If anything goes wrong, please call first. Maybe it can be fixed over the phone or by sending a part.

How to order:

Call or e-mail to confirm delivery dates and prices. I can e-mail you a bill to turn in to the treasurer. Payment is required before the quizbox will ship. (Or for a COD fee of approximately $18, the box can ship first and you give the check to the UPS man.) PayPal is accepted, but their fee of about 3% will be added to the total. Zelle is also accepted, and has no fee. Credit cards are not currently accepted.
Be sure to include a street address for UPS, and a mailing address for Post Office deliveries.

Worldwide AC Adapter (country-specific plug)	call
Briefcase carrying case	$100.00

NOTE:

* Prices are subject to change. Please get a fresh download of this file to obtain the latest prices before ordering.

Cheaper paddles ($10 vs. $23) have been in use since 2023. They are as durable as the traditional ones, as they are made to be stepped on. They are slightly larger in size.
Here's a picture of the traditional (on the left) and the cheaper ones (on the right):

System prices with the new are:

Quizbox with timer for 8 quizzers (8 paddles) $405 vs $495
Basic Quizbox for 8 quizzers (9 paddles) $210 vs $330

Both types will remain available for the foreseeable future.

Handbuzzers and USB handpads currently still require the traditional handpad.
